## PRESIDENT OF CUBA.

Palma Reported Selected as the Man for the Place.

## CUBANS ARE PLEASED

They are More Willing to Accept the Platt Amendment, but Would Prefer the Independence They Have Fought For.

New York, April 30.—The Cuban delegates visited General Brooke at Governor's Island and were much pleased with the entertainment. When seen at the Fifth Avenue hotel Monday night Senor Capote said:

"There is no truth in the published stories that Cubans found fault with the expenditure of the fund contributed to the junta in New York. Everything in that direction was most satisfactory."

"The report to be presented to the convention relative to the matters concerning which we conferred with the president and Secretary Root has not been prepared. We are working at it and do not expect to complete it much before our arrival in Havana."

T. Estrada Palma called on the delegates at the hotel here and was in conference with them for over two hours. Nearly all the matters which brought the delegates to the United States were gone over, and General Palma's views ascertained. There is reason to believe that the subject of a fitting candidate for the presidency was brought up and that the possibility of General Palma's selection was discussed. When asked for statement, General Portuondo said:

"A great stumbling block has been removed. This is all I care to say."

"What stumbling block do you mean, Senor?" was asked.

"Section 3 of the Platt amendment," was the answer. "The Cubans have been afraid of your armies. They fear what some call imperialism. Now in section 3, I think, of the Platt amendment, it is provided that the United States may send troops into Cuba whenever, in the opinion of Washington, such action is necessary. This provision awakened widespread suspicion. Many said it was only a pretext for the United States to continue a standing army in Cuba for all time. The presence of soldiers, and especially those of another people cannot but be onerous and discomfiting to us."

"Others said that although the United States might withdraw her forces now, she could, under this provision, immediately send them back again. This, then, was a stumbling block. It was, perhaps, magnified in the eyes of the common people, and they demanded that if these suspicions were well founded, such a measure should not receive our sanction. But President McKinley soon assured us that these suspicions were groundless. When we said that by this provision the United States had more jurisdiction over Cuba than over any one of its states, because in the latter case I understand the national government cannot send troops into a state without the permission of the state government, he said:

"Gentlemen, you need have no fear. Troops will not be sent into Cuba unless conditions are little less than anarchy."

"The president's answer so convinced us that we could not but be impressed with his sincerity."

"How do the Cubans feel in regard to independence?" was asked.

"Ninety-nine per cent of our people," the general answered, "want independence. They will not even listen to an annexation. They want independence—absolute independence. Now I do not mean that the Cuban people are not disposed to give the Americans that they—the Americans—will need for their defense. I tell you that if the question of independence is settled and all differences on the subject are eliminated everything else can be arranged."

"What do you mean by independence? Does not each state in the United States have independence?"

"By independence I mean sovereignty. We want to regulate our own internal affairs. But our preferences will be for America, to help and support her in case of need."

"Are you sure then that the United States will grant Cuba its desired independence?"

"Yes, I am sure. And I believe that Washington will soon announce to the world that Cuba is a sovereign power, and that Cuba will indeed be a nation by Feb. 24, 1902."

## Methodist Missionary Conference.

New Orleans, April 30.—The closing day's session of the missionary conference of the Methodist Church South, was presided over by Bishop J. C. Granberry. Rev. W. R. Lambaugh spoke on the growth, policy and outlook of the foreign work of the church and an address was made by Rev. Y. J. Allen on the missionary conditions in China and Corea. J. C. C. Newton surveyed the entire eastern missionary field. The convention has proved the largest gathering of a religious feature ever held in this city.

## More Honor for McKinley.

Boston, April 30.—The Harvard University corporation has expressed itself unanimously in favor of granting the degree of doctor of laws to President McKinley.

## OUR STANDING ARMY.

Efforts Will Be Made to Have Seventy Thousand Troops by Aug. 1.

Washington, April 30.—At the war department it is said that efforts are being made to have the reorganized standing army fully officered and equipped and enlisted to the strength of 75,000 by Aug. 1. More apprehension is felt over getting the full quota of competent line officers by the date mentioned than over the recruiting of the 15 new regiments. Except for this, it is probable that Secretary Root and Adjutant General Corbin would have accompanied the president on his western trip. It is true that nearly all of the 800 or more line officers of the grades of first and second lieutenants created by the new law have been designated by the president but every one of these appointees must undergo a rigid examination before commissions in the regular army are issued to them.

On the law of averages it is estimated by experienced army officers that fully one-third, and perhaps half of these originally designed by the president for appointment, will fail either on mental or physical examination in order to meet the exigencies or being prepared for the secretary of war and the adjutant general to whom the president has turned this task over. There is being selected a long list of applicants with reference of course to the wishes of senators and other influential men in the several states.

In order to expedite the work other applicants already selected by the president, Secretary Root and General Corbin will appoint a dozen or more boards of examiners to sit in various parts of the country, where the convenience of the appointees will be best served. Whenever an appointee fails to pass the examination the name of the first alternate from his state will be certified to the board of examination and this process will be continued until the full quota of subalternates required by law is complete.

It is not thought that the examinations will be in full swing for six weeks or two months yet and this expectation is based on the reckoning that the new officers will be selected. This will not interfere with the organization of the new regiments or with the sending of fresh troops to the Philippines to take the place of the volunteers. This work will keep pace with the recruiting as by detailing line officers of the old to the new regiments for temporary duty the proper quota of officers in the field can be kept up.

The announcement is made at the war department of the final decision reached a few days ago to retain in the service the two battalions of native Puerto Ricans that are officered by Americans. Authority to do this is granted by the army and it was not thought until recently that advantage would be taken of this provision. It is understood that with few exceptions the officers now commanding the Puerto Ricans battalions will be recommissioned.

The formation of native Philippine regiments provided for by the new law and to be officered by Americans with commissions running four years is also being considered by the war department, but it is expected that this matter will be held in abeyance for a year or more until the Filipinos become completely reconciled to American authority.

This decision will cause disappointment to soldiers and officers of the volunteer regiments who remained behind in the Philippines when their regiments were brought home in the hope that they would immediately obtain commissions in the present organizations. Still the force of 4000 it is intended to be kept in the Philippines proves inadequate to cope with the situation the provincial regiments may be organized at another date than now seem probable.

## Cudahy Determined.

Omaha, April 30.—Edward A. Cudahy has received a letter from an agent of the kidnapers of his son making him the proposition to return \$21,000 of the money paid for his son's ransom, demanding in return a withdrawal of the \$25,000 reward and cessation of search together with the abandonment of the determination to punish the criminals. The letter bore the postmark of Elgin, Ill., and Cudahy is convinced of its authenticity. Cudahy refuses to consider the proposition and declares he will prosecute to the end the search for the men who abducted his son.

\$900,000 has been paid. It is no known how much insurance was carried on the vessel. The collector at Honolulu sent over by the Rio \$30,000 in treasure and it was not insured. The steamship company also carried many thousands in the safe on which there was no insurance. The most valuable portion of the cargo was raw silk.

## Largest of All Meetings.

Cripple Creek, Colo., April 30.—The indications are that the meeting of the Transmississippi Commercial congress to be held in June will be the largest in the history of that organization. Among the prominent men who have signified their intention to be present are ex-Senator Thurston and William J. Bryan of Nebraska, Governor Sayers of Texas and John Henry Smith of Utah, the present head of the Mormon council.

### At Fort Worth.

Fort Worth, Tex., April 30.—The New York special arrived here at 9 o'clock last night, after making a short stop at Hillsboro. The party was met at the depot by a large number of citizens of Fort Worth and were escorted to the Hotel Worth, where dinner was immediately served. Enthusiastic speeches were made at the banquet. This morning the party were shown the city.

This afternoon the New Yorkers left for Cleburne, where a barbecue is in store for them. They go from Cleburne to San Angelo.

### Good Roads Convention.

### Reward for Kidnapers.

Omaha, April 30.—The body of Pat Crowe is not so much in demand as it was before the acquittal of Callahan. The \$5000 will no longer be paid by the city of Omaha for Crowe's body dead or alive. The council has authorized the chief of police to withdraw this reward. The reward of \$25,000 offered by the city for the arrest and conviction of the three kidnapers of Eddie Cudahy was allowed to stand. The city will pay \$8000 for the confession of one of the criminals.

### Killed His Brother-in-Law.

Chattanooga, April 30.—William Ramsey, a crippled tinker, shot and killed his brother-in-law, Madison F. Amos, a truck farmer, of the suburbs of this city, because the latter refused to take a drink with him. Ramsey was intoxicated and used an old Enfield rifle. The bullet passed through Amos' body and fatally wounded an infant in the arms of Mrs. Amos, who was in the room at the time.

The Eagle has been asked by many if it was intended to organize a Y. M. C. A. in Bryan, and has been requested to urge the matter upon those who are interested. The writer is of opinion that such an organization can be made to succeed and that the time is ripe for it. It would do much towards aiding the young men to spend their idle time pleasantly and profitably, and would be able to afford amusements from time to time for the public. Somebody should take the lead and see what can be done.

### Don't Get Angry.

We are sorry to state that there are now \$3000.00 in accounts due on our books. We have urgently requested those who are in arrears to come forward and settle without delay. We cannot run this plant on wind and water. It takes money to give the people the service.

Those in arrears must pay or we will be forced to cut off both lights and water. One dollar will be charged for cutting off and one dollar for turning on. Read the rules of the company and settle to avoid getting angry.

We owe debts and must pay them. Delinquents will have their lights and water cut off if not paid for by May 10, 1901. The last call; take notice and govern yourself accordingly. B. W. L. & P. Co. 127 by W. H. Harman, supt.

A circular issued by the St. Louis and San Francisco Railway Company says: On April 15th, 1901, the St. Louis and North Arkansas Railroad was completed, and first-class passenger train service established to Harrison, Arkansas, forming, in connection with the Frisco line at Seligman, Mo., the only railroad to the great and (as yet) but partially developed mineral fields of Northwest Arkansas. The richness thus opened, both in agricultural and mineral wealth, is so well established as scarcely to need mention. The only obstacle presented heretofore to the homeseeker or prospector has been the entire absence of railway transportation facilities. With this barrier removed, the future of the district, and the opportunities afforded for safe return on investments, are no longer in doubt.

The ladies of the Methodist church will give an entertainment at the residence of Mrs. James A. Webb Friday evening from 8 to 11. A pleasing program and refreshments. Everybody invited. 28

## TIME FOR EVACUATION

Generals of Powers Decide upon Two Conditions.

## NOT YET ACCEPTED

It Was also Decided to Allow Chinese to Gradually Assume Control. Germans Suffer in a Fight With the Chinese.

Pekin, April 30.—The generals of the powers held a conference Monday morning to consider the withdrawal of the troops and decided to address a note to the ministers informing them that when the ministers are able to announce the lump sum demanded as indemnity and when the Chinese have agreed to the principle of payment the armies will be immediately withdrawn. Other matters discussed were the handing over of the administration of Peking to native officials and the plan for the command of the legation guards—as to whether this command should be centered in one or some other detachment. Regarding the government of Peking it was decided to allow the Chinese gradually to assume control, until they have the city in their hands, the military only exercising passive supervision.

Some time was spent in considering the reply of the ministers to views recently enunciated by the generals regarding other questions of a purely military character. The ministers agree with the generals as to the razing of the forts and also as to the points to be occupied between Peking and the sea, but they desire the generals to specify the numbers of the different nationalities at Tien Tsin and Shan Hai Kwan. So far as concerns the garrison of 4000 men which is to remain permanently at Tien Tsin during the period of actual occupation it will be necessary that each nation's strength shall be determined.

The ministers have said that the government at Tien Tsin shall be abolished as soon as the military departs. They agree that the forces in China should be under one commander-in-chief, but they contend that the generals should understand that the legation guards are entirely outside such forces and under their respective ministers. The ministers suggested that it would be necessary for the generals to consider the advisability of entrusting the police and administration of Peking to Chinese officials about one month before the evacuation, but in considering this question they urged that the fact must be recalled that there never had been military administration or a permanent military organization in Peking unless troops with banners could be called such.

Concerning the military evacuation the ministers said that the reports to be submitted to their governments were that a partial reduction of troops was always possible, but that evacuation proper could not commence before the Chinese government had accepted the general conditions of the payment of the indemnities.

The Germans were verily caught in a trap near the Ku Kwan pass. A detachment of 80 had 45 casualties while the Chinese losses are said to have been nominal. The German expedition is returning, leaving the country tried owing to the hardships put upon the populace. The expedition appears to have produced a very bad effect.

The current Chinese gossip is that the Germans were driven back with heavy losses and this is implicitly believed by the bulk of the people.

### Captain Reed on Trial.

Manila, April 30.—The trial of Capt. James C. Reed, former deputy commissary at Manila, who was arrested a fortnight ago for alleged commissary frauds was begun here Monday and bids fair to develop into a celebrated case. He is charged with soliciting and receiving bribes and with other official misconduct.

### Cherokee Treaty Defeated.

Muskogee, I. T., April 30.—Indications are that the Cherokee treaty has been beaten by a large majority. Chief Buffington's home gave 300 majority against the treaty. Buffington led the fight against the treaty. Defeat means enforcement of the Curtis law and much legislation.

San Angelo, Tex., April 30.—Santiago Ganado, a Mexican woodworker, was shot and killed in the Klondike saloon here. Kid Hall gave himself up and is now in jail.

## WAR TAX ON COAL.

English Shippers and Miners Losing Hope of Getting Relief.

London, April 30.—The shipping and mining industries are settled down to the conviction that the only concession which can be expected from the treasury is the exemption of the contracts for a short period from the export duties on coal and candid men among them are beginning to admit that the agitation has been pitched too high and that the mines will not be closed or ships driven from the sea by the new methods of taxation. Contractors now assert that foreign navies, like the French, will be forced ultimately to pay the export duty on Welsh steam coal and that Michael Hicks-Beach's forecast that the tax will fall upon the foreigner may be fulfilled in the course of time.

### Two States Clash.

Spokane, Wash., April 30.—The governments of Washington and Oregon are heading toward a clash at the Pan-American exposition. Washington's fair commissioners will lay claim to an exhibit in Oregon's department of an immense fir tree, contending that it is being shown under false pretenses as an Oregon pine. The tree has been sent east in Oregon's exhibit, requiring five long cars to transport it. Five cars of dressed lumber of the same material are also included in the claim. Timbermen have been sent out through the Puget Sound country in Washington to find the stump of the tree, armed with which and with affidavits, Washington's commissioners will make their fight. Thirty cars of Washington products will be shipped east immediately destined for the fair.

### Governor Stanley Paying for Triplets.

Topeka, April 30.—Governor Stanley confessed he made a foolish offer a month ago when he agreed to give a solid silver mug to all triplets born in Kansas during his second administration. Five fond mothers already have secured from the governor 15 nice silver cups for their babies, and Sunday's mail found another letter, backed up with affidavit of A. C. Dunlap, of Crawford county, that two sons and a daughter were born to his wife two weeks ago. The salary of the governor of Kansas is \$3000 per year, but at the rate triplets are being reported much of this sum will be used in the purchase of presents for babies. The governor fears that he may be deceived in this triplet business, and as a necessary precaution he has demanded the certificate of the attending physician, along with the affidavits from the parents.

### Crowds See the President.

Chattanooga, April 30.—The presidential party reached here on their special train at 9:15 o'clock this morning, en route to the Pacific coast. At all points along the route there were great crowds to see the president and much courtesy was shown the chief executive. The train will reach Memphis late this afternoon.

### Enthusiastic Greeting.

Memphis, April 30.—Dispatches from points along the route of the presidential party report enthusiastic greetings from the people. At Huntsville, Ala., the president delivered a short address arousing great applause, and Mrs. McKinley was deluged with flowers.

### Important Surrenders.

Manila, April 30.—The report that General Alejandrino has surrendered is confirmed. He was looked upon as the possible successor of Aguinaldo. Padre Aglipay, an ex-communicated Filipino priest, who preached holy war against the United States, also surrendered.

Captain John B. McDonald with 21 men of Third cavalry recently attacked 60 insurgent firemen and 40 bolomen in the mountains of Abra province. The insurgents were defeated. Captain McDonald was wounded in the lungs and a private killed.

### General Tinio Surrenders.

Manila, April 30.—General Tinio, the Filipino leader in Abra province, has surrendered.

### Aguinaldo a Witness.

Manila, April 30.—Aguinaldo has been subpoenaed as a witness for the defense in the Mando Ducat murder case, pending in Tay Tay, province of Morong.

### Oil Excitement in Wyoming.

Evanson, Wyo., April 30.—A grusher of oil was struck in Aspen tunnel of the Union Pacific and great excitement prevails. There is great activity in the recently discovered oil fields at Pioneer Hollow, Aspen and Piedmont. Pennsylvania, California and Nebraska capitalists have secured large tracts of land and will bore for oil. Local parties also ordered machinery and will sink oil wells.

### Nihilistic Plot Discovered.

Berlin, April 30.—The Lokal Anzeiger prints a dispatch from Breslau which says an extensive nihilistic plot has been discovered in Russian Poland. Six hundred arrests have been made. Several towns have been occupied by two companies of Cossacks. Secret correspondence was discovered at Slesce by which the plot was revealed.

### Bayard Cutting Married.

London, April 30.—W. Bayard Cutting Jr., secretary of the United States embassy here, and Lady Sybil Cuffe, daughter of the earl of DeSart, were married at All Saints church, this city. The wedding was a comparatively quiet affair.
